

TANGO Transformable system with double bed and modular, fixed and stand alone sofa

GENERAL TECHNICAL INFORMATION

Tango is a transformable system with double bed and modular or fixed sofa. The double bed is provided with the innovative patented bed base Cf97 made by a frame in extruded anodized aluminium with adjustment system, integrated in the structure of the wallbed and with a sliding mechanism for the opening and closing movements .

The tilting opening system is equipped with a safety stop device without visible cables and springs opening and closing are done with a simple motion through a handle placed on the front shelf, which becomes, by a tilting movement, support of the bed on ground and remains always parallel to the floor during the opening, allowing to leave objects on it.

The bed can be equipped with a stuffed textile headboard, fixed to the backrest panel through snaps The modular sofa with either fixed or sliding seats it can be combined with elements with or without armrests, corner elements and chaises longues in different sizes, obtaining different configurations

The sofa is also available in the fixed version 2 seats (cm190) - intermediate (cm 223) and 3 seats (cm 270), therefore without the bed, and it can be placed everywhere. Seat cushions are made of natural feathers with pull out and interchangeable polyurethane foam insert.

Backrest cushions are made of piumafill with integrated roll cushion in foam.

All cushions have a white cover made of 100% cotton cloth that prevents any contacts with padding.

Covering made of removable fabric or leather.

The system is self-supporting.

The bed base is made of slats in solid beech plywood attached to the frame with adjustable nylon/rubber seals.

Available mattresses h cm18 double bed cm154x202 weight kg 29-32, springs, memory, memory 7 zones, memory deluxe, latex versions (see details from Page 65)
